Justin Cosnett

Justin has an exceptionally strong and varied technical background, with over 20 years' experience in the hosting and SaaS sector, primarily in customer facing support, operations or technical roles. Initially working for an ISV developing software for logistics, manufacturing and health markets in the UK and US, since joining Continent 8 in 2012, Justin has added the iGaming and financial services market experience to his skill set.

As Head of Solution Architecture, Justin has responsibility for optimising Continent 8 solution integration with client architecture and the management of the Technical Pre-sales Team.
