

# K-AIR

KPMG's Aviation Insight & Reporting tool

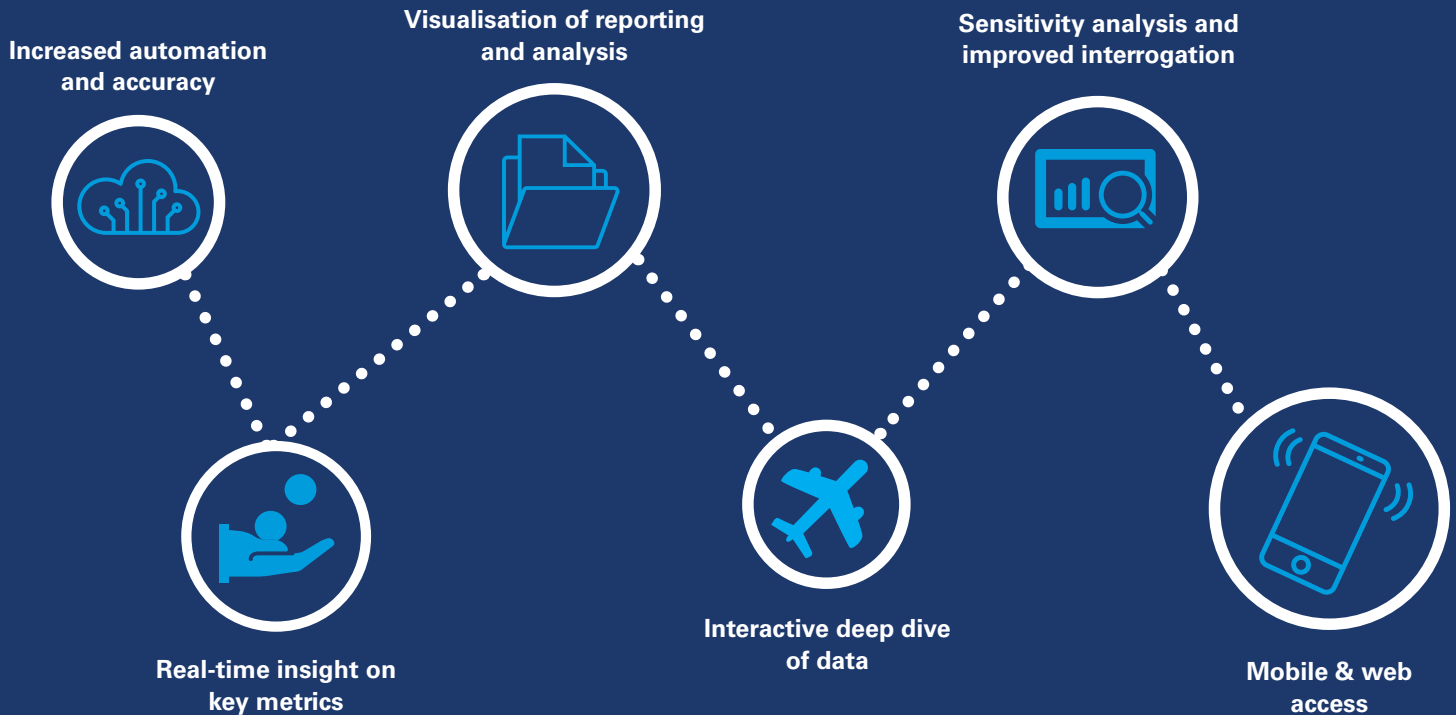

## K-AIR

Having clarity on performance and a deep insight into drivers and trends ensures informed decision making.

K-AIR utilises leading technology coupled with deep industry insight to deliver the information you need. Developed by one of the world's leading aviation finance and leasing advisors, K-AIR delivers executive information when and where you need it.

## K-AIR delivers:

*Gain a better understanding and make better decisions by distilling large amounts of data in real time. Get the insight you need to drive revenue growth, lower costs and improved customer engagement.*

***K-AIR's analytics engine, based on our industry knowledge, delivers all the information you need when you need it.***

## Benefits

Our unique toolset is based on leading cloud technology:

- ✈ Tailored to your portfolio and easily integrated into your systems
- ✈ Real time access to data with fewer manual errors
- ✈ Richer insight
- ✈ Scalable and flexible – built for growth and change - add additional reports with ease
- ✈ Very cost efficient

## Industry leading support from KPMG

We understand your need for real-time insights to maximise the performance of your business. K-AIR combines our aviation and data and analytics expertise to deliver the certainty and comfort you need
