KPMG BUSINESS SCHOOL: WHAT DIFFERENTIATES US

Holistic Approach to Learning

We advise organisations by taking a holistic, rather than a silo-ed view of learning; solving for a learning need rather than conducting isolated training modules. We help our clients bundle the most relevant programmes by taking a problem-solving approach and building integrated learning modules.

Global Capabilities

We work 24/7 across the globe to service different geographies and collaborate with client teams across countries.

Plan Your Journey

Our development plans help individuals and organisations set goals and then phase the development process according to the organisational stage or individual career milestone. All learnings and their takeaways can be recorded in a personalised learning book.

Balance Theory and Business Application

Our programmes are delivered by consultants who work with clients in that subject along with senior advisors and educational instructors who are leaders in theory and research.

Marquee Alliances

KPMG Business School partners with leading educational establishments, technology providers and professional institutions to provide the most relevant and robust learning experience.

Robust Content Development

Our modules leverage cutting-edge research and are authored by a team of academicians, industry specialists, entrepreneurs, consultants and instructional designers to ensure highest quality.

Outcome-driven Learning

We believe in clearly defined learning objectives and help our clients develop a 'learning mission' for every programme.

Learning Management System

We deploy a sophisticated LMS that is user friendly and enables organisational learning.

Renowned Faculty

Teaching is both an art and a science. Our trainers are experts in their respective fields and equipped with learning instruction skills, in addition to technical know-how.

Continuing Professional Education (CPE) credits will be awarded upon successful completion of each course.
