# COVID-19 News Supplement

Center for Healthcare Regulatory Insight

## COVID-19 by the Numbers

There are now [over 33.4 million confirmed COVID-19 cases](#) in the US, with a death toll of over 600,000.

Science and health experts are growing concerned about the [Delta variant of the virus](#), which was first identified in India and now accounts for 6% of sequenced cases in the US.

306 million COVID-19 [vaccine doses have been administered](#) in the US (1.14M/day over the past week)... 172 million Americans ([61.5% of Americans 12 and older](#) and 86.5% of Americans 65 and older) have received at least one dose of a COVID-19 vaccine; 141.6 million Americans are fully vaccinated (50.5% of Americans 12 and older)... KFF reported that among 41 states with consistent data, as of June 7, the [percentage of white people who have received their first COVID-19 vaccine \(44%\)](#) was roughly 1.4 times higher than the rate for Black people (31%) and 1.3 times the rate for Hispanic people (35%).

CDC Director Rochelle Walensky [urged parents to vaccinate their teenagers](#) against COVID-19 after a spike in hospitalizations among younger patients.

## Executive and Administrative Action

The Biden Administration will [purchase 500 million Pfizer-BioNTech COVID-19 vaccine doses](#) for distribution to countries most in need... US Senators said the US will [give Taiwan 750,000 COVID-19 vaccines](#).

HHS Secretary Xavier Becerra told a Congressional committee that the [Administration would soon provide additional guidance and flexibility](#) to healthcare providers on using remaining COVID-19 Provider Relief Fund allocations before the June 30 deadline.

HRSA provided rural health clinics with [nearly \\$425 million in American Rescue Plan funding to improve COVID-19 testing](#) and mitigation.

CDC [updated its international travel guidance](#) for both vaccinated and unvaccinated travelers.

CDC is moving forward with [development of a respirator for healthcare workers](#) that can be repeatedly disinfected and reused.

## Healthcare Regulatory News

CMS will [pay providers an additional \\$35 per COVID-19 vaccine dose](#) administered in a beneficiary's home, bringing total reimbursement to \$75 per dose.

FDA told COVID-19 test manufacturers to [submit applications now to convert their emergency use authorizations to full approval](#) so that they can stay on the market after the public health emergency is over... FDA [recalled a COVID-19 rapid antigen test](#) produced by Innova Medical Group, accusing the company of distributing the test without regulatory clearance.

OSHA [released a workplace safety rule](#), requiring healthcare employers to protect workers against COVID-19 infection on the job; the rule does not apply to employers in other industries.

### Healthcare Law, Business, and Policy News

A classified May 2020 U.S. government national laboratory report [concluded the theory that COVID-19 leaked from a lab](#) in Wuhan, China was plausible.

UnitedHealthcare announced it would [reimburse providers for COVID-19 tests](#) at CMS rates, following lawsuits for failing to do so.

An Axios-Ipsos survey found that just [11% of people who reported wearing masks outside the home tested positive for COVID-19](#), compared to 26% who said they never wore masks outside the house, suggesting that masks may have deterred spread... 30% of Americans believe [that a return to pre-pandemic lives is a moderate to large risk](#), down from 61% at the beginning of March.

A [Harvard University analysis found](#) that all but one of the nearly 50 congressional districts with at least 60% of residents having received at least one COVID-19 vaccine are represented by Democrats, suggesting lingering partisanship over vaccination.

### Surveillance, Testing, and Treatment

The CDC Vaccines and Related Biological Products Advisory Committee [met Thursday to discuss](#) what information the agency should request in order to authorize COVID-19 vaccines for children age 11 and under; CDC and FDA officials reported on [higher than expected rates of myocarditis among adolescents and young adults](#) following a second COVID-19 vaccine, but have not yet concluded there is a clear link.

Moderna requested FDA [emergency use authorization for its COVID-19 vaccine in adolescents](#) (age 12 to 17)... Pfizer and BioNTech [launched a late-stage clinical trial](#) to test their COVID-19 vaccine in children younger than 12.

FDA [extended the shelf life of Johnson & Johnson's COVID-19 vaccine](#) from three months to four and a half months.

G-7 leaders will [commit to donating 1 billion COVID-19 vaccine doses](#) to low-income countries.

A World Health Organization official [estimated that approximately 80% of a country's population](#) needs to be vaccinated against COVID-19 in order to significantly reduce the risk of virus variants causing new, wider outbreaks.

Merck reported that the [US government plans to buy 1.7 million courses](#) of its experimental COVID-19 antiviral treatment for \$1.2 billion if the pill is authorized by the FDA.
