The demands on the chief tax officer are growing

and now technology is available to assist and enable significant improvements.

KPMG's Asset Management Platform is leading-edge technology that can help you reimagine cost-effective, innovative ways to execute tax compliance and planning. Informed by our extensive, in-depth tax knowledge of pass-through structures, our Asset Management Platform enables efficiency and transparency, and helps normalize big data so you can save time, improve accuracy, and discover new tax value-adds for your organization:

- Complete transparency into the status of tax deliverables and the capability to drill-down into calculations (not a black box)
- Reduced risk of missing tax compliance and investor reporting deadlines
- Increased operational efficiencies across all aspects of tax compliance (data collection, updating investor/tax info, creating reports, and tax filings)
- Shared access for client, KPMG, and authorized third parties
- Reduced rework time and enhanced reporting derived from one tax technology platform supporting all major asset classes for both federal and state
- Improved decision support enabled by scenario planning, modeling, estimates, and data analytics
- Removal of constraints on business growth and profitability by replacing manual processes and legacy systems.

Our people serving you

KPMG's Asset Management Platform, coupled with our tax experience serving partnerships, RICs, and REITs and executing consistent processes, can help keep your compliance, planning, and reporting on track.

The partners and professionals of KPMG's Asset Management Services practice have extensive experience helping numerous partnership, RIC, and REIT structures overcome their unique tax challenges. Working with our State and Local and Washington National Tax teams, we help you realize tax advantages and maintain compliance by adding clarity through:

- Modeling
- Transactions
- Entity formation structuring
- Tax planning
- Legislative and regulatory developments.

As part of the delivery model, a member of the tax technology team will be available to you throughout the transition planning, client onboarding, and service stages. Some of the key tasks that will be performed during your onboarding include:

- Understanding your current process, data, and systems
- Identifying key milestones to track
- Reviewing and importing your investor and entity data
- Reviewing system-generated fund/organization charts for accuracy
- Tailoring reports to serve your management team and investor demands.
